

In an extraordinary meeting today, 23 February, the executive committee in Kristiansand has decided to close fitness centres and swimming pools, introduce a ban on serving alcohol, and wants everyone to wear face masks on buses and in shops.

Specifically, the following applies:

- Fitness centres, swimming pools and the like are to be closed (with some exceptions)
- Eating places cannot serve alcohol
- We must use a face mask in public spaces, i.e. shops, buses and other indoor situations (where we cannot be at least 1 meter apart).

Kristiansand has an opposite trend than the other cities in Norway when it comes to the spread of COVID-19.

## Now, it is important that we all help to stop the spread!

There are rules for public and private events. If you have questions, contact the municipality or see this:
